

Color Painter™ 64S

Key Features/Benefits

Product Feature	Benefit
Six industrial piezo-electric inkjet print heads with 512 nozzles each for a total of 3,072 nozzles	Reliable, high-speed printing of quality pigmented inks
Direct printing on uncoated adhesive vinyl, scrim banner, fabrics and paper	Use a huge variety of uncoated media to keep production costs down and profits up
Expanded Gamut Pigmented Solvent Inks	Create the widest range of colors including “fire engine reds”, neon blues, and deep glossy blacks – easier to match colors and gives you a big advantage versus the other digital printers in your market
High resolution - true 720 dots per inch (not apparent) with small 14 picoliter drops	Razor sharp photographs and smooth tonal gradations
3 years outdoor durability without lamination	Sell your output to the widest range of applications, from vehicle graphics, window graphics, exhibits, on-premise signs, banners, etc. – no secondary protection needed for long-term outdoor display – ink does not rub off or scratch off like other solvent inks
Speed, Speed, Speed 176 square feet per hour at 720 dpi with 4 passes – that’s 3x to 5x faster than other solvent printers in its price class	Fast turnarounds on high quality prints Maximum production capacity for high volume shops
1 liter ink reservoirs x 6 colors = 6 liters	Minimum ink changing, and minimum down time
More prints per day, lower costs per print	More Profits
Free integrated optically-driven take-up system	Allows long unattended printing with no additional hardware purchase
Seiko I Infotech precision engineering	Extreme reliability in high-production environments
Only the highest quality Dealers in the sign market represent Seiko I Infotech products	The industry’s best pre-sales, installation, workflow integration, and support
On-site installation and training	Immediate payback on your investment
Low printer and ink prices	Best value for your company in digital sign printers

**If your company is looking
for the BEST sign printer on the market today
– then the ColorPainter 64S is for you.**
